ASO/AC Activities: Global Policy Management

- There are currently no Global Policy Proposals
- A Global Policy
 - “Global policies are defined within the scope of this agreement as Internet number resource policies that have the agreement of all RIRs [Regional Internet Registries] according to their policy development processes and ICANN, and require specific actions or outcomes on the part of IANA or any other external ICANN-related body in order to be implemented.”
 - Global policies determine number allocation policy for requests that involve IANA
 - Global policies may also specify regional number allocation policy

Global Policy Development

- Each region has its own policy development process
 - All open, transparent, and bottom-up
- Global policy proposals are submitted in all 5 regions
