AC - ICANN Workshop
(28 - 29 October, Brisbane - Australia)

• **Main Actions Proposed**

  • **Global Policy**
    — Initiate a process to identify differences and similarities in current policies and procedures.
    — Ask RIRs to prepare a draft one month before the next physical AC meeting (to be held in conjunction with the GA).
    — Circulate the draft as a public document for comments.
    — Then do what is appropriate under the terms of the MoU.

  • **Net24 Policy**
    — Refer the document to the RIR’s because this is an administrative and not a policy issue.

• **Process for resource support to ICANN/IANA**
  — Suggest to ICANN to agree to go through the registry system and only raise this matter as an issue if problem ever arises.

• **How to further improve the openness and PR of the AC**
  — To create an ASO AC mailing list to which members only can post but the public can read.
Main Actions Proposed

Ad Hoc group activities
- To suggest the RIR’s to include on the agenda of their next open policy forums the relevant issues identified throughout the Ad Hoc exercise.

Discussion of ASO MOU
- ASO and Address Council suggest that the MoU could be amended to use the terms consistently throughout.
- Suggest that the MoU could be amended to clarify if there should be "only" one GA per year, or "at least" one GA per year.
- Suggest that the MoU should have a provision for temporary replacement.
- Suggest that the MoU should allow for three observers for each emerging RIR (currently, there is one observer and two listeners).
- Suggest that the following sentence does not make sense and should be to remove the sentence:
- "Should any difference of opinion arise during the term of this MOU regarding the interpretation of this MOU the conditions prevailing prior thereto shall be maintained."

Call for ICANN Board Nominations

ASO General Assembly for 2001 and Call for ICANN Board Nominations

January 3, 2001 - The Address Council of the Address Supporting Organisation is pleased to announce the second ASO General Assembly meeting, to be held on Wednesday, 4 April 2001, in San Francisco, U.S. This meeting will be hosted by ARIN alongside ARIN’s Public Policy and Members Meeting, and will be open to all parties with an interest in ASO policy matters. A detailed meeting agenda will be published in due course on the ASO web site, at http://www.aso.icann.org/.

In compliance with the ASO MoU <http://www.aso.icann.org/docs/aso-mou.html>, the Address Council and ICANN hereby call for nominations to the ICANN Board, of candidates to fill vacant ASO seats on the ICANN board as they become vacant. The next such seat scheduled to become vacant is currently occupied by Mr. Ken Fockler, who will stand down on 1 October 2001. However, candidates nominated at this time may also be chosen to fill other seats which may become vacant before or after this time. Note that appointments to the ICANN board must satisfy the geographic diversity constraints specified in section 5c of the ASO MoU.

Any individual may be nominated within this process, with the exception of any official of a national government or a multinational entity established by treaty or other agreement between national governments (ICANN Bylaws Art. V., Sec 5). Self-nominations are permitted.

Nominations should be sent by email to <secretariat@aso.icann.org> and should state the following details:

A. Nominee details

1. Full name
2. Organisational affiliation
3. Email address
4. Physical address
5. Country of residence

The ICANN Board declared the work of the Ad Hoc Group completed

At its meeting on 13 March 2001, in Melbourne, the ICANN Board of Directors approved the following resolutions, regarding the Ad Hoc Group

Whereas, on 26 August 1999, in resolution 99.79, the Board established an ad hoc group to be charged with developing the objectives and proposing structures for future policies in the area of numbering, especially as required to meet global market needs and taking into account the convergence of information technology services and networks;

Whereas, an Ad Hoc Group on Numbering and Addressing was convened for discussion of these issues by way of a web-based public comment forum established for that purpose under the guidance of an editorial group;

Whereas, in the time since establishment of the forum various participants have made useful contributions to the web-based public comment forum on numbering and addressing issues, including an extensive report posted by Mark McFadden and Tony Holmes on 8 March 2001;

It is therefore

RESOLVED [01.16] that the Board refers the 8 March 2001 McFadden/Holmes report to the Address Council of the Address Supporting Organization for further consideration and development of recommendations as appropriate by that body;

RESOLVED [01.17] that the Board declares the work of the Ad Hoc Group on Numbering and Addressing completed;

RESOLVED [01.18] that the Board requests the ICANN staff to arrange for continued on-line archiving of the substantive postings of the Ad Hoc Group for a suitable period of at least one year; and

RESOLVED [01.19] that the Board thanks Mark McFadden, Tony Holmes, and the editorial group for their significant contributions to the work of the Ad Hoc Group.

Genesis of ALSC

• Interim At-Large solution adopted by ICANN Board:
  – Direct election of 5 Directors by self-selected At-Large constituency
  – Comprehensive study of how to appropriately provide for input/influence into ICANN by individual Internet users
Creation of ALSC

• January -- Board approved ALSC Charter; appointed Carl Bildt Chair, Pindar Wong, Chuck Costello Vice Chairs; Denise Michel retained as Executive Director

• March -- Board ratified 6 Members: Pierre Dandjinou, Esther Dyson, Olivier Iteanu, Ching-Yi Liu, Thomas Niles, Oscar Robles

Goal

• Forge a broad consensus on an appropriate and effective means by which individual Internet users worldwide may participate in ICANN's activities and decisions.
  – This includes both how they can give input to ICANN (directly or through representatives), and how that input should affect ICANN's overall decision-making processes.
  – Final recommendations to ICANN's Board in November.
Methodology

• Fulfill our Charter
  – Sets forth initial set of responsibilities (scope of study, participation, deliverables)
• Study (and encourage studies of) At-Large
  – Concept, Structure, Processes
• Conduct Outreach
  – Seek and encourage input from all interested parties
• Build consensus
What we need to address
(Charter questions)

• Should the ICANN Board include At-Large Directors?
• If so, how many such At-Large Directors should there be?
• How should any such At-Large Directors be selected?
• If selection by an At-Large membership is recommended, what processes and procedures should be used to create that At-Large membership? What minimum criteria, if any, should be required for membership?
• If an At-Large membership is to exist, what should its structure, role and functions be? How should it be funded?
Strategy

• Listen, encourage ideas/studies, generate agreement

• Initial focus on participation of organizations/individuals worldwide, development of independent studies/analyses

• Long-term focus on distributing draft proposals/concept papers, generating consensus
Activities

- Sharing information online
  - Email primary mechanism for input
  - ALSC website (www.atlargestudy.org)
- Outreach meetings
  - March, Melbourne
  - June, Stockholm
  - August, North America
  - September, Montevideo
- Outreach events
  - 10+ events worldwide (like this)
- Working meetings/teleconferences
  - 3 internal meetings to plan efforts, develop report
Schedule

- Discussions, consensus generation through September
- Draft report for public comment due by September 9
- Final report to ICANN Board by November 14
  - schedule must to conclude with an ICANN Board decision that can be fully implemented, as required by the current bylaws, no later than the ICANN Annual Meeting in 2002
What we have done so far

- ALSC creation (charter, members, prep meeting in February)
- Initial budget/schedule approved by ICANN Board in March
- Aggregate At-Large election data posted on our website
- Outreach
  - emails to At-Large list, ICANN’s list, etc. (5000+)
  - website established: [www.atlargestudy.org](http://www.atlargestudy.org)
  - 300+ email comments received (on-line forum to start soon)
  - Melbourne meeting with 60+ participants
  - Outreach events in Kuala Lumpur, Taiwan
Your role

• Share your personal views
  – check “www.atlargestudy.org” periodically for questions and issues on which we need your input
  – send us an email -- comments@atlargestudy.org
  – participate in our on-line forum that is opening soon
  – attend an ALSC outreach meeting or event (see calendar at www.atlargestudy.org)

• Share your collective views -- what does the ARIN/ASO membership think of these At-Large issues?
