Emerging RIRs

• Observed progress in the establishment of LACNIC and AFRINIC new RIRs.
  • active and regular participation by LACNIC & AFRINIC representatives as ASO observers
  • LACNICIC granted conditional approval by ICANN
  • AFRINIC working to finalize internal structure and office location (in close collaboration with RIPE NCC and ARIN)
RFC 2050 Update

• Discussion of RFC 2050 replacement.
  – Global Mailing list for discussion:
    Rfc2050-wg@arin.net
  – Presentation given at ASO GA in Thailand.
  – Policy document develop independent of IETF, but might want to submit as INFO doc later obsolescing RFC 2050.
Global IPv6 Policy

• The RIRs are working on a global IPv6 policy
  – Current IPv6 allocations are done under the “bootstrap” rules which allow for any company using IPv6 in production to obtain an allocation
  – Mailing list for discussion <global-v6@lists.apnic.net
  – Good collaboration between RIFs and IETF
  – More discussion to come later
